LEADING YOU HIGHER

Citation® jets help the world's business leaders accomplish extraordinary things every day. Whether you're looking to expand your global presence, work more efficiently, or make a bold statement, your Citation jet will take you and your business further.

Smart decision-making has been the cornerstone of your success. You are careful and deliberate — always thinking future first — and you want to fuel every aspect of your life with the momentum to move forward, skyward, without limits. As the most popular business jet in the world, Citation has helped more leaders gain ground than any other jet brand. With more than 30 million hours flown across the Citation fleet and more than 6,500 jets delivered, we understand the passion and ingenuity it takes to lead. So go ahead, meet your jet. And then get to work — you've got places to go.

CITATION MUSTANG START YOUR JOURNEY

ENGINEERED FOR EXHILARATION

The standard for entry-level jets, Citation Mustang® is the ideal solution to a diverse range of business travel needs. Robust avionics deliver at-a-glance awareness that is comprehensive and intuitive. The Mustang's aerodynamic design and advanced technology make for exceptional short-field performance with the ability to climb 41,000 feet in 27 minutes, fly at speeds up to 340 kts, and yield a full-fuel range of 1,150 nautical miles.

RANGE¹
1,150 nm

MAX CRUISE SPEED

SEATING CAPACITY
5 passengers

TAKEOFF DISTANCE
3,110 ft

TRAVEL IN MAXIMUM COMFORT

Travel in comfort with the Mustang's quiet and roomy cabin interior. Featuring six large oval windows, the Mustang's cabin is flooded in natural light while providing spectacular views. Executive club seating for four features ergonomic, adjustable reclining chairs, stowable executive desk tables, and spacious storage solutions for a high-end, handcrafted flying experience.

MUSTANG SPECIFICATIONS²

Cabin Height ³	54 in (1.37 m)	Baggage Capacity	
Cabin Width ³	55 in (1.40 m)	Weight	718 lb (326 kg)
Cabin Length	9 ft 9 in (2.97 m)	Volume	63 cu ft (1.78 cu m)
Seating Capacity	5 passengers	Single Pilot Certified	Yes

¹ Full fuel, maximum takeoff weight, 100 nm alternate.
² Specifications are subject to change.
³ With a typical interior installed.

CITATION M2

EVERYTHING YOU WANT

A POWERFUL JET INSPIRED BY WHAT PILOTS WANT

From the first bolt in the airframe to the last stitch in the interior, the Citation M2® was designed from the voice of the customer. The M2 offers a wide selection of customizable configurations with an all-new interior, in-cabin technologies, climate control, and adjustable lighting. The smart design of the M2 continues in the flight deck where intuitive touch-screen avionics and large-format displays provide pilots with optimal awareness. When it comes to performance, M2 delivers. Constructed with advanced composite and aluminum materials, the M2's light body is aerodynamically enhanced for power.

RANGE¹

1,300 nm

CITATION CJ3+

UPGRADE YOUR PERFORMANCE

EFFICIENCY, DEPENDABILITY, AND COMFORT

The CJ3+™ delivers superior reliability without sacrificing efficiency and comfort. With a wide-span, natural-laminar-flow wing design, the CJ3+ is engineered for excellent performance, impressive range and speed, and well-appointed comfort. With an upgraded Intrinsic™ flight deck powered by Garmin® G3000™ operating this single pilot-certified jet is so intuitive, it's fueling the passion for flight in pilots and passengers alike.

REFRESHINGLY COMFORTABLE

The 14 multipaned, elliptical windows in the CJ3+ fill the cabin with natural light while suppressing outside noise. The cabin's features include executive club seating, an optional extended refreshment center that is interchangeable with an additional seat, adjustable LED lighting, and more. The cabin can be outfitted to your liking with sophisticated styling choices, each with a unique blend of rich leathers, finely tailored fabrics, and polished wood veneers.

Shown with six-seat configuration.

CJ3+ SPECIFICATIONS²

Cabin Height ³	57 in (1.45 m)	Baggage Capacity	
Cabin Width ³	58 in (1.47 m)	Weight	1,000 lb (454 kg)
Cabin Length	15 ft 8 in (4.78 m)	Volume	65 cu ft (1.84 cu m)
Seating Capacity	9 passengers	Single Pilot Certified	Yes

¹Full fuel, maximum takeoff weight, 100 nm alternate.

²Specifications are subject to change.

³With a typical interior installed.

CITATION CJ4

EXPAND YOUR PRESENCE

FLY THE CLASS STANDARD FOR DEPENDABLE PERFORMANCE

With impressive speed, range, and cabin size, the CJ4® still delivers efficiencies. Enhancements such as single-point fueling and an externally serviceable lavatory help you get back in the air faster. Excellent “hot and high” performance, refined wing design, an electrically heated windshield, and an improved powerplant are features that make the CJ4 a favorite among corporate fleets.

CITATION SOVEREIGN+ POWER YOUR FUTURE

GENEROUS RANGE WITH POWERFUL PERFORMANCE

We're always improving on greatness. With enhanced technology, an all-new interior, upgraded avionics, and better performance, the Sovereign+™ sets a new standard of business travel for leaders everywhere. New winglets increase its already intercontinental range to 3,000 nautical miles. And the Sovereign+ can access more airports, getting you closer to your final destination. The IntrinziC™ flight deck powered by Garmin® G5000™ transforms the cockpit into a responsive command center for pilots. And the well-appointed, climate-controlled cabin of the Sovereign+ has been meticulously crafted to provide up to 12 passengers with a consistently comfortable and enjoyable ride.

CITATION SOVEREIGN+ 16

CITATION X+

LEAVE YOUR COMPETITORS BEHIND

THE WORLD'S FASTEST BUSINESS JET

The fastest civilian jet in the world is going to change how you do business. The Citation X+™ will climb to 51,000 feet and cruise at incredible speeds of up to Mach 0.935. Simply put, no other business jet can match the combination of range and speed offered by the Citation X+. The award-winning design of the Citation X+ exterior — including dramatically swept wings, a low-drag airframe, and two powerful engines — significantly reduces travel time so you can spend more time where you need to be. With a smarter, more spacious and stylish cabin, faster trips, and more enjoyment, the Citation X+ is the leader in performance.

 RANGE ¹	 MAX CRUISE SPEED	 SEATING CAPACITY	 TAKEOFF DISTANCE
3,242 nm	527 kts	12 passengers	5,280 ft

THE ULTIMATE IN CUSTOM LUXURY

No two X+ interiors will be the same. Your jet will feature customized interior finishes to fit your requirements. Densely pillowed, ergonomically designed seats with wide cushions finish the standard configuration. The Clairity™ Cabin Management System provides the ability to control the cabin environment via seat-mounted touch-screen controls. Access to WIFI as well as audio and video entertainment is included. Every X+ includes a finely appointed lavatory, vanity, and storage space, all beautifully arranged under the adjustable ambient lighting of the cabin.

Shown with bar configuration.

LEADERS IN GLOBAL SERVICE

Every Citation jet is backed by the support of private aviation's largest service network. With a global presence of 15 Cessna-owned Citation Service Centers, and more than 40 Mobile Service Units, we're committed to keeping you and your business moving. Citation Service runs on the passion of the most talented and skilled aviation experts in the world. The members of your service staff have a true love for flying and take pride in the ability to do whatever it takes to keep people moving.

SERVICE THAT COMES TO YOU

Citation's Mobile Service Units bring nearly every maintenance procedure — scheduled or unscheduled — right to your jet. And when a situation calls for an air approach, we'll dispatch our Air Response Team to respond for Citation customers throughout North America.

POWER YOUR JET WITH SMARTER SYSTEMS

ROBUST AVIONICS*

- Flight management systems that enable robust navigation for en-route, terminal, and WAAS precision approach
- Moving map functions that include range and pan
- Weather-avoidance radar systems
- Touch-screen control panels
- Automatic flight control systems
- Attitude heading reference systems (AHRS)
- Integrated avionics units
- Distance measuring equipment
- Traffic collision avoidance systems (TCAS II)
- Terrain awareness warning systems (TAWS)
- Transponders with ADS-B out capability
- Type 1 FDR*
- Standby instrumentation
- Radio altimeter
- Cockpit voice recorder
- Emergency locator transmitters
- Maintenance diagnostics

*Features may vary by model.

INTUITIVE PILOTING

Every Citation is equipped with a comprehensive, integrated avionics system that makes flying more intuitive. These all-glass flight decks offer advanced technology to consolidate all primary flight, navigation, engine, and sensor data onto large, easy-to-scan, flat-panel displays. The result is significantly reduced pilot workload and greatly enhanced safety.

TOUCH-SCREEN CONTROL

The crown jewel of the Citation avionics systems is the Garmin® G5000™. By far the most intuitive pilot interface ever seen in this class of avionics, this integrated flight deck system combines four digital touch-screen controllers and three multipane, widescreen displays enhanced with Garmin Synthetic Vision Technology (SVT™). Garmin's SVT shows the pilot a realistic 3D virtual representation of terrain, obstacles, and traffic that is unmatched in any other system. The G5000 comes standard in the Sovereign+, Latitude, and X+.

YOUR JET, YOUR WAY

PREMIUM FINISHING TOUCHES

When you put finishing touches on a world-class jet, you want them to measure up to quality that surrounds it. So our design team set to work to hand-select beautifully soft leathers, rich wood veneers, and fabrics that are of premium quality and up to Cessna's high standards. The final collections we put together undoubtedly deliver on beauty, quality, and, most importantly, what you want in your jet.

ELEGANT JET INTERIORS

Once you've found a Citation, it's time to make it yours. You will meet with our design team and delivery experts to select the combination of refined interior finishes that best suit your tastes. Alternatively, several signature collections are available. These sophisticated stylings blend a unique mix of rich leathers, finely tailored fabrics, and polished wood veneers. These compositions allow you the luxury of custom tailoring without the extended delivery schedule. Choose the customization that best suits you and enjoy swift delivery.

A CANVAS WITH WINGS

The defining element of your jet's exterior is a flawless paint scheme. Expert Citation designers and exterior detailers will work with you to customize your jet's paint to meet your specifications. Every exterior paint customization is enhanced with protective finishes that will preserve its shine and help guard against environmental damage.

WE GIVE YOU PEACE OF MIND

RIGOROUS TESTING

We put every component of your aircraft — from fuselage to hydraulic systems to onboard computers — through testing under the most extreme conditions. In fact, our jets test well above certification requirements. And with state-of-the-art monitoring of every certification test flight, we ensure that every jet comes in for a perfect landing.

FLIGHTSAFETY TRAINING

We offer FlightSafety pilot training at multiple locations — featuring state-of-the-art training equipment and course materials for the development of the safest, most knowledgeable flight crew possible.

OUR COMMITMENT TO SAFETY

Our respect for safety is ingrained in our company culture, values, and tradition. From concept to design, Cessna's passionate engineers continually evolve ideas that shape the future of aviation. And because they know that optimal performance, value, and comfort are nothing without reliability and peace of mind, they consistently choose to go above and beyond what safety certifications require.

ENGINEERED FOR SAFETY

From the nose to the tail, your jet is loaded with evidence of our dedication to safety. It starts with simple, yet robust aircraft systems that increase reliability and reduce pilot workload. From there you can count on predictable runway performance, low takeoff and landing speeds and stable, docile flight characteristics. And when it comes to the cockpit, our designs enhance a pilot's situational awareness to help them determine the safest course of flight.

MOVING YOUR BUSINESS FORWARD

LEADING THE INDUSTRY

Cessna has produced nearly 200,000 aircraft, more than all competitors combined. In fact, Cessna has trained more than 120,000 pilots and won 29 *Robb Report* Best of the Best awards and two Robert J. Collier Trophies. And with the largest aviation service network in the world, plus an 85-year history of aviation leadership, it's clear: we're leading the industry. **This is aviation authority.**
