GRAND CARAVAN EX

THE RELIABLE MULTITASKER

FASTER SPEED

With the powerful 867-horsepower Pratt & Whitney Canada PT6A-140 turboprop engine, you can reach cruise speeds of 185 kts and travel distances of up to 792 nautical miles.

CERTIFIED PROTECTION

The Cessna Grand Caravan EX is now certified with the TKS Ice Protection system for flight into known icing conditions.

STRONGER CLIMB

Climb at 1,275 feet per minute, 32 percent higher than any other aircraft in its class.

DEPENDABLE, VERSATILE, POWERFUL

With the Cessna Grand Caravan EX, you can count on exceptional performance whether you need it for business or personal adventures. This workhorse was engineered for challenging, rugged missions with high payloads and short, rough runways. With a powerful engine, class-leading climb performance, and superior dispatch reliability, the Grand Caravan EX has the strength to keep you moving.

RELIABILITY SQUARED

The dispatch reliability of the Caravan models is unparalleled: a remarkable rate of over 99 percent. And with longer than average maintenance intervals, you'll spend more time in the air and less time on the ground.

RUNWAY OPTIONAL

Takeoff with less than 1,399 feet of ground from almost anywhere. The Grand Caravan EX's landing gear is made to withstand the rigors of rough and unimproved airstrips. The large, rough-field tires can be set down on grass, gravel, or even more rudimentary runways.

CARGO LOADED

The cargo pod provides an extra 111 cubic feet of storage space with distributed loading to prevent weight shifting. The pod's wide loading doors make it easy to access.

CLIMB ABOARD

The Caravan Airstair Kit facilitates easier entry and exit through the left side of the aircraft. Taking advantage of the existing cargo door structure, the Airstair saves significant weight over other designs. Installation is simple and the modification has no negative impact on the aircraft's performance or capacity.

THE PERFORMANCE IS CARAVAN

THE CHOICE IS ALL YOURS

RUGGED, RESOURCEFUL, AND READY FOR TAKEOFF

Some businesses need light and nimble and some need strong and reliable. So to accommodate this we offer both the Cessna Caravan and Grand Caravan EX. Turn to the Cessna Caravan, for signature rugged reliability and speed. Because it's lighter of the two you can take off from as little as 2,055 ft, climb at a fast 1,234 fpm, and travel up to 932 nm at speeds of up to 186 ktas. When you have heavy loads, our Grand Caravan EX cabin is wide, long, and highly configurable. As the workhorse of the pair, it boasts a 867 horsepower engine that helps it climb at a rate of up to 1,275 feet per minute. And with the useful load of 3,567 lbs and a maximum cruise speed of 185 ktas, you can carry heavy loads fast and land almost anywhere.

GRAND CARAVAN EX

- RANGE: 792 nm
- MAX CRUISE SPEED: 185 ktas
- TAKEOFF: 1,399 ft
- USEFUL LOAD: 3,567 lbs
- CLIMB: 1,275 fpm

CARAVAN

- RANGE: 932 nm
- MAX CRUISE SPEED: 186 ktas
- TAKEOFF: 1,160 ft
- USEFUL LOAD: 3,310 lb
- CLIMB: 1,234 fpm

GRAND CARAVAN EX SPECIFICATIONS

Cabin Height	54 in (1.37 m)	Storage Capacity	
Cabin Width	64 in (1.63 m)	Weight	1,410 lb (640 kg)
Cabin Length	16 ft 9 in (5.10 m)	Volume	143 cu ft (4.05 cu m)
Seating Capacity	13 people*	Maximum Payload	3,225 lb (1,463 kg)

Numbers are preliminary and subject to change.
*Up to 14 people where certified.

A COCKPIT CONFIGURED FOR CONFIDENCE

The all-glass flight deck in the Caravan models has an integrated Garmin® G1000™ avionics suite featuring the digital GFC 700 automated flight control system. Feel confident in the pilot's seat with all of the primary flight, engine, and sensor data in your line of sight and complete control at your fingertips. Two LCD primary flight displays and a center multifunction display give real-time, critical data including traffic, topographic, and relative terrain data, digital attitude and heading, engine and airframe indication, and crew alerting.

CONFIGURE YOUR FLIGHT FOR PEOPLE, CARGO, OR BOTH

Every Caravan can be configured for commuter seating, high-density occupancy, or to accommodate a group of passengers with oversized cargo. The Grand Caravan can also be converted into the Super Cargomaster model for cargo only missions. The Oasis interior upgrade gives you the style and functionality to transform your Caravan for executive travel. With this comfortable, customizable workhorse, every passenger can enjoy both ample headroom and stunning views.

WHATEVER YOUR MISSION FLY WITH CONFIDENCE

SPECIAL MISSIONS

- **Search and rescue**
Intelligence, surveillance, and reconnaissance
- **Float operations**
Direct intervention on water
- **Parachute operations**
Both recreational and professional
- **Pipeline/geophysical survey**
Visual pipeline inspections
- **Aerial mapping photography**
Stability, docile handling, and long range
- **MedEvac**
Medical evacuation/air ambulance

THERE'S NOTHING MORE MISSION CRITICAL THAN ARRIVING

When an aircraft has a critical job to do, reliability is a prerequisite. The Caravan's renowned dispatch reliability rate of 99% combined with multi-mission versatility, excellent performance, and generous payload capacity make it the ideal platform for special missions. Whatever the job, you can customize your Caravan to fit its purpose: install specific equipment, configure the interior, and carry people, cargo, or both. Whether you're saving lives, protecting the public, surveying territory, transporting, or something in between, you can count on your Cessna Caravan to accomplish your mission.

LAND, SEA, SKY — THIS PLANE IS ON A MISSION

The Caravan and Grand Caravan EX Amphibian are built to access remote and exotic areas of the world for missions ranging from pure adventure to life and death rescues. The airframe is a durable aluminum construction so it's both lightweight and strong. In fact, it's the largest, strongest single-engine amphibious aircraft on the market. Whether you're touching down on water or land, the sturdy amphibious floats make your landing as smooth as the flight itself. They also offer more storage space, so pack them full and take off.

GRAND CARAVAN EX

STYLE MEETS VERSATILITY

OUR OASIS™ EXECUTIVE INTERIOR

If executive travel is your mission, the spacious Caravan interior is the perfect canvas for customized style and comfort. Configure seating and interior design to your taste and requirements with options for amenities, upholstery, seating, work spaces, and more. Select from finely appointed cabinetry and top-grain leather to comfortable work spaces and flat-panel video displays.

ONE CABIN, MULTIPLE SEATING ARRANGEMENTS

HIGHLY CONFIGURABLE FLOOR PLANS

With the commuter seating option, the Caravan and Grand Caravan EX can seat up to 10 and 14 people respectively. Seats are lightweight yet durable, capable of withstanding heavy use. Seats can be installed and removed quickly and easily, enabling operators to fly either passengers or cargo, further enhancing the rugged adaptability of the Caravan.

The Caravan's standard interior collections include Charcoal and Stone. Charcoal offers a refined, sophisticated look expressing culture and class with a stylish elegance. Stone is brighter, contemporary, and clean to add an expanded sense of spaciousness with a luxury SUV feel.
